

Online learning can be fun!

I am going back to school soon! However, there is something different in this year. I will do my learning and schoolwork at home. I will not go to my school due to COVID-19.

Some teachers will send homework to mommy and daddy for printing out. I need to complete the homework at home. I can seek help from mommy and daddy if I have any questions.

Some teachers will teach online. I can use my _____
_____ to attend different classes. I may need to
wear my uniform during online learning.

When it is time for online learning, I will get myself prepared! I will put my pencil case and _____ on my table. I need to show my teachers good sitting and good listening. I will raise my hand if I have things to say. If I am focused in class, my teachers will be happy.

My teachers are not sure how long online learning will last, but they will tell me when it is time to come back to my school. It will be so fun to see my teachers and friends again!
